Subject: Alliance to Prevent the Abuse of Medicines - Legislative Concepts - Comments Due by Wednesday February 26th at 3p
Attachments: Legislative Concepts HIGHLIGHTED CHANGES Working Draft 2 19 14.docx

All,

Please find attached the legislative concepts document for your review. As discussed today, please have your comments back to us by Wednesday February 26th at 3p. We will then turn it around and have a finalized document by the end of the week. The physician notification provision is still underway, but in the meantime if we are able to have final agreement on the base legislative concepts it would be great.

As requested, highlighted in yellow are the provisions that reflect changes to the document and will require your careful review and approval. With respect to inclusion of law enforcement references, these references were pulled in along with reference to state laws. Given the Alliance's public health perspective, we should feel free to have our legislation encourage states to pursue a public health approach over a law enforcement approach, and we welcome any edits to that end.

Thanks very much.

Regards,
Kathy
